(10.06 am)

**MS LLOYD-OWEN:** Good morning, Chair. This morning we will hear evidence from Sonia Edwards in relation to her son, Christopher Irwin. Sonia would like me to refer to him by his first name and would like me to refer to her by her first name as well.

But before we hear from Sonia, I would like to point to the fact that today's evidence may, in parts, be distressing and difficult to listen to and, for some, it may not be possible to sit through this session. Anyone in the hearing room is welcome to leave at any point. I would like to remind people that emotional support is available for all those who require it. We have support staff from Hestia, an experienced provider of emotional support, here today and for each day of this hearing.

There is a private room downstairs where you can talk to Hestia support staff, if you require emotional support at all throughout this hearing. The Hestia support staff are wearing orange coloured lanyards and scarves, or speak to a member of the Inquiry team, and we can put you in touch with them. We are wearing purple coloured lanyards.

If you are watching online, information about available emotional support can be found on the Lampard

1 Inquiry website at lampardinquiry.org.uk and under the  
2 "Support" tab near the top right-hand corner. We want  
3 all those engaging with the Inquiry to feel safe and  
4 supported.

5 Please can the witness be sworn.

6 **SONIA EDWARDS (sworn)**

7 **Questioned by MS LLOYD-OWEN**

8 **MS LLOYD-OWEN:** Thank you. Please can you state your full  
9 name for the record.

10 **A.** Sonia Vera Edwards.

11 **Q.** Sonia, you are Christopher Irwin's mother, and you are  
12 here to speak about your experience of Christopher's  
13 treatment in care. Christopher died of bronchopneumonia  
14 on 2 May 2023 when he was just 34 years old; is that  
15 right?

16 **A.** Yes.

17 **Q.** You provided a witness statement dated 7 May 2025?

18 **A.** Mm.

19 **Q.** Do you have a copy of that witness statement in front of  
20 you?

21 **A.** Yes, thank you.

22 **Q.** On the last page of that statement, is it right that you  
23 made a statement of truth and then signed the witness  
24 statement?

25 **A.** Yes.

1 Q. Have you had an opportunity to read through that  
2 statement?

3 A. Yes.

4 Q. Is that document true and accurate to the best of your  
5 knowledge and belief?

6 A. Yes.

7 Q. You have also provided a commemorative account about  
8 Christopher's life -- and we will come to that at the  
9 end of your substantive evidence -- and, at that point,  
10 you would like to read that out. We will then, after  
11 that, show a photograph of Christopher as well.

12 The Inquiry is extremely grateful to you for your  
13 statement and all of the evidence you are going to give  
14 today.

15 Sonia, I want to start by asking about Christopher  
16 as a child. You tell us in your statement that  
17 Christopher was a very loving, kind and sensitive child,  
18 who needed things to be organised and liked to keep  
19 himself busy. You also talk about noticing a change in  
20 his behaviour and mood --

21 A. Mm.

22 Q. -- when he was about 12, and that that raised concerns  
23 for you; is that right?

24 A. Yes, yes.

25 Q. You say that when Christopher was 12, after visiting his

1 best friend in Hong Kong and becoming aware of his best  
2 friend's parents' marital issues, his personality seemed  
3 to change?

4 **A.** Yes.

5 **Q.** Can you say a bit more about the way that he changed at  
6 that time?

7 **A.** Yeah. He became quite angry, he was moody, a bit  
8 stropopy, and he felt just very deflated. As I've said  
9 in the commemorative, it's almost like his bubble had  
10 burst. He had had this life that he believed -- being  
11 an only child, he loved company and the family that he  
12 was with, with his best friend, was a wonderful -- you  
13 know, wonderful family that he loved and cherished  
14 dearly. And the bubble had burst because it wasn't  
15 quite what he witnessed.

16 **Q.** You also say that Christopher had signs of attention  
17 deficit hyperactivity disorder, ADHD --

18 **A.** Mm-hm.

19 **Q.** -- and bipolar disorder as a child --

20 **A.** Mm.

21 **Q.** -- but these disorders were undiagnosed?

22 **A.** Mm-hm.

23 **Q.** Can you tell us a bit more about what the signs were  
24 that you now consider may have been ADHD or bipolar  
25 disorder?

1   **A.** Well, I think he was dyslexic, a bit like myself, as  
2   well. And I wanted to say to everyone that's here that  
3   sometimes I may come across as not clear and quite  
4   muddled, and it's because of my dyslexia, and I believe  
5   Christopher also had that also, because he was all over  
6   the place -- a bit like myself sometimes -- doesn't  
7   concentrate quite as well as he could. And the bipolar,  
8   I think, was brought on by maybe him drinking and mixing  
9   things. So that may have not actually been  
10  a personality trait, as it were; it may have been of  
11  a knock-on effect of maybe what he was doing to himself  
12  that I didn't know.

13  **Q.** So at this point when Christopher is in his early  
14  teens -- we'll come to when he's 17 and talk about  
15  drinking and drug taking -- do you recall if either you  
16  or Christopher discussed the signs that you were  
17  concerned about, that he may have ADHD or dyslexia, with  
18  his GP or with his school?

19  **A.** No, I didn't, actually, because all those years ago it  
20  was -- they were just a little bit different. You know,  
21  now we have, you know, more diagnosis and -- but then it  
22  was like, well, they're just who they are. It's a shame  
23  because, of course, becoming that way or being that way  
24  and not being the same as everyone else makes you feel  
25  a little bit insecure but ...

1 Q. We'll come to talk about a period in Christopher's  
2 mid-20s when he was diagnosed with depression?

3 A. Mm-hm.

4 Q. Do you know if, at that stage, or at any time in his  
5 life, he was ever tested for ADHD or bipolar disorder?

6 A. Not to my knowledge.

7 Q. Insofar as you can answer this, how do you think, in  
8 hindsight, a diagnosis or, at the very least, testing  
9 for these conditions, might have helped Christopher  
10 manage his mental ill health better?

11 A. I think in primary school it would have been an amazing  
12 thing and it would have changed everything for his whole  
13 life, actually.

14 Q. You describe a further change in Christopher's  
15 personality when he was 17 years old?

16 A. Mm-hm.

17 Q. Can you say a bit more about how Christopher's behaviour  
18 changed at that time?

19 A. It was when he did work experience and I then  
20 understood, after -- after he'd passed -- that that's  
21 when he started drinking and taking alcohol. And he was  
22 more than just a bit moody; he was all over the place.  
23 His father then moved back from America and he moved in  
24 with him, so it's only after he died, also, that his  
25 father has told me his behaviour and how he was. So

1 secondhand, that was my experience.

2 Q. You've mentioned that, at that point, he began drinking.  
3 In terms of drug taking, I think you say in your  
4 statement that it was around that time that he was  
5 introduced to cocaine; is that right?

6 A. Yeah, that was when he had -- when he started his work  
7 experience and it was from that day that, really, his  
8 whole life never progressed very much.

9 Q. What impact did this change in his behaviour have on  
10 your relationship with Christopher?

11 A. At that point, from 17 onwards, for then nearly half of  
12 his life, our relationship was very poor, purely  
13 because, when I recognised there was a difference in  
14 him, I would question him, and he would say, "Well, Mum,  
15 that's why I don't bother coming round: because you're  
16 always asking me questions. I'm not into drugs, I'm not  
17 into drink. You know, you always look down upon me".

18 And I'm -- I just feel different, "I feel you're  
19 different". And he was always cruising for an argument  
20 or something to get out that door as quick as possible.  
21 A mum sees through and feels everything from their  
22 child.

23 Q. So would it be fair to say that your sense was, because  
24 you were trying to reach out and help him, he shut down  
25 a little bit --

1     **A.**   Mm-hm.

2     **Q.**   -- and distanced himself from you?

3     **A.**   Mm-hm, very much so.

4     **Q.**   As far as you're aware, was there ever any involvement  
5       by local Child and Adolescent Mental Health Services in  
6       respect of Christopher's mental ill health?

7     **A.**   No.

8     **Q.**   You explain that when Christopher was in his mid-20s, he  
9       was then diagnosed with depression?

10    **A.**   Yes.

11    **Q.**   Was this diagnosis something you knew about at the time  
12       or you've become aware of later?

13    **A.**   I became aware of it later.  It was a lot later that  
14       I found this out.

15    **Q.**   Is it something that you were aware of whilst  
16       Christopher was still alive or you've learnt since his  
17       death?

18    **A.**   Subsequently -- well, as soon as his father brought to  
19       my attention of his alcoholism, it was then brought to  
20       my attention then.

21    **Q.**   When was that?

22    **A.**   So that would have been just a few years before  
23       Christopher died.  So all the way thorough that, our  
24       relationship was very volatile because of his change in  
25       personality for nearly half of his life.  You know, he

1 was not the person he used to be.

2 **Q.** You say that you were told later that the depression was  
3 partly caused by the inability to sleep, due to the  
4 addiction to alcohol?

5 **A.** Yes.

6 **Q.** How do you consider that Christopher's drug taking and  
7 alcohol abuse impacted upon his mental health?

8 **A.** Well, that was the problem, completely, because he was  
9 the life and soul. The main crutch of the depression  
10 and the drug addiction was to try and make himself feel  
11 better again because, of course, his life was spiralling  
12 down. He did a year at university; he didn't follow it  
13 through. He couldn't focus on anything. His mind  
14 wasn't who he was. And that brought on his depression  
15 because he was almost in quicksand all the time.

16 **Q.** You understand that Christopher was prescribed  
17 antidepressants in his mid-20s.

18 **A.** Mm-hm.

19 **Q.** Do you know whether he remained consistently on  
20 antidepressants from that point onwards?

21 **A.** From my knowledge, I don't think so but all I knew was  
22 that the medication was prescribed but, if you're  
23 drinking and taking drugs, as well as antidepressants,  
24 they don't work.

25 **Q.** What was your understanding, or what is your

1 understanding now, of the approach that Christopher's  
2 GPs were taking to treating his depression?

3 **A.** They weren't looking at it as to do with alcoholism or  
4 drug taking, they were looking at it as a different  
5 compartment, when it's all under the same umbrella in my  
6 eyes.

7 **Q.** You say in your statement that Christopher would tell  
8 the GP he had an alcohol addiction and was depressed --

9 **A.** Mm-hm, mm-hm.

10 **Q.** -- and they would give him a new antidepressant  
11 prescription --

12 **A.** Mm-hm.

13 **Q.** -- but that it wasn't holistically dealt with?

14 **A.** Definitely not. It wasn't holistically -- it wasn't  
15 treated with kindness. It was treated as if he was  
16 choosing to take drugs and drink, when that isn't  
17 actually the actual case. He couldn't stop doing what  
18 he was doing to himself.

19 **Q.** So there was support given by way of medication for the  
20 depression?

21 **A.** Mm-hm.

22 **Q.** But would it be fair to say that your sense is that it  
23 was for him to do the heavy lifting in relation to  
24 the --

25 **A.** Absolutely, yeah.

1 Q. -- the alcohol addiction and drug taking?

2 A. Very much.

3 Q. So you say in your statement that he was not encouraged  
4 or offered help in relation to his addiction by his GP?

5 A. No.

6 Q. Is that something that you ever discussed with  
7 Christopher or something you've learnt since?

8 A. No, we discussed because there were many appointments  
9 that I went with Christopher, I had to -- you know,  
10 sitting outside with him, that he was desperate. And he  
11 came out many a time crying because he was deflated  
12 because it was like, "They're not listening to me".  
13 That may have been the depression, that may also have  
14 been him asking for sleeping tablets because he couldn't  
15 sleep. He felt that, "If I could just sleep, Mum,  
16 I could start feeling a bit stronger".

17 He was running on empty and so, of course, when  
18 you're running on empty and you're working and you're  
19 trying to hold your life together, you drink more, you  
20 take more drugs, just to become half the person you used  
21 to be. And the more you take, the more you need.

22 **THE CHAIR:** Did he tell the GP about his drinking and drug  
23 taking?

24 A. Yes.

25 **MS LLOYD-OWEN:** You've touched on this a little bit but what

1 is your view as to the appropriateness of prescribing  
2 antidepressants to Christopher when he was openly  
3 continuing to abuse alcohol and illicit drugs?

4 **A.** Sorry, could you repeat that?

5 **Q.** What's your view as to whether he should have been given  
6 antidepressants when he was continuing to abuse alcohol  
7 and drugs?

8 **A.** Well, I just know that if you are on antidepressants,  
9 you shouldn't mix alcohol and drugs with them. But of  
10 course when you are a full addict, the choice of that  
11 door -- that door's closed. You can't choose, "Oh, I'm  
12 just going to stop drinking today, I'm just going to  
13 stop, you know, taking drugs." You can't choose any  
14 more. And I think that's the bit where there's a huge  
15 problem there because they take it as a choice; it's not  
16 a choice. And so they're prescribing antidepressants  
17 for something they shouldn't be taking, being the  
18 antidepressants, on top of the other things they're  
19 taking.

20 So with that became hallucinations. That's when he  
21 started losing himself more and more.

22 **Q.** You say that in the months before he died, Christopher  
23 told you that during this period he was off the walls  
24 because of the combination of his medication --

25 **A.** Mm.

1 Q. -- presumably the antidepressants --

2 A. Mm-hm.

3 Q. -- cocaine and alcohol use?

4 A. Mm-hm.

5 Q. You describe an incident he told you about, in terms of  
6 the impact of this cocktail of alcohol and drugs?

7 A. Mm-hm.

8 Q. Can you say a little bit about this incident that he  
9 told you about when he locked himself in his wardrobe?

10 A. Yeah, he locked himself in his wardrobe. A neighbour  
11 subsequently told me also he was screaming out of the  
12 windows just before that incident because he felt there  
13 were lots of people in his flat. He was hallucinating  
14 and he was scared. And all the way through, from  
15 reading his diaries, which I found after he passed, how  
16 scared and how frightened he was and how ashamed he felt  
17 was highlighted all the way through the diaries.

18 Q. Now, at this point, when he's in his early 30s --

19 A. Mm-hm.

20 Q. -- are you able to say how much he was drinking?

21 A. Well, I can't be specific but I believe it was a good  
22 couple of litres of vodka a day. The reason being is,  
23 I found some bottles, but the thing was -- and the thing  
24 that I've now understood more of -- is that the more you  
25 take, the more you need, to give you peace. And all he

1 wanted to do was sleep. And so maybe one bottle used to  
2 put him to sleep and he could actually have a few hours'  
3 sleep, then two bottles, and you don't need many of  
4 those bottles.

5 **Q.** Given that Christopher was known to have substance  
6 misuse problems, do you know whether he was ever given  
7 an immediate release or emergency supply of his  
8 antidepressant medication?

9 **A.** Not to my knowledge but I don't believe so because he  
10 lost faith in the doctors completely.

11 **Q.** I want to ask you now about two incidents in 2021 when  
12 Christopher attempted suicide by taking an overdose.  
13 Were you aware of these incidents at the time or did you  
14 become aware of them later?

15 **A.** I became aware of them later.

16 **Q.** When was that? How long after these two incidents did  
17 you find out?

18 **A.** I can't be specific. I believe it was all about the  
19 time when his father had told me that Christopher was an  
20 alcoholic and a drug addict. It was from then which  
21 I then said, "Okay, what can we do?" I looked locally,  
22 there was nothing. No one responded to any of my  
23 messages wherever I left -- whoever I spoke to said  
24 there's a long waiting list. So I paid for private  
25 rehabilitation.

1 Q. You talk about that private rehabilitation in Luton in  
2 your statement --

3 A. Yes.

4 Q. -- and that that was not an effective place?

5 A. Completely not.

6 Q. And that there was no aftercare provided?

7 A. No.

8 Q. So that, once he left, there was a cliff edge and  
9 a deficit of any support --

10 A. Yes, very much so.

11 Q. -- thereafter?

12 A. Yeah.

13 Q. You say in your statement that you were not informed  
14 about those two admissions at the time but that you  
15 found out afterwards, is this right, through social  
16 media because Christopher posted on Facebook showing  
17 that he was in hospital and wrote words to the effect  
18 of, "I'm still here, I've done this to myself".

19 A. Mm-hm, yeah. I found -- I don't do Facebook or social  
20 media, so I found out that secondhand, not from  
21 Christopher.

22 Q. In terms of the timing of all of this very difficult  
23 knowledge that came to you about Christopher and what he  
24 was coping with --

25 A. Yes.

1 Q. -- I think you say in your commemorative statement  
2 that -- which we will come to -- that this was about  
3 18 months before his death?

4 A. Yes.

5 Q. Does that sound right?

6 A. Yes, it was a cry for help.

7 Q. Yes, I understand, is that right: that your view is that  
8 those two incidents of overdose were a cry for help,  
9 rather than intentional attempts by Christopher to take  
10 his own life?

11 A. Absolutely.

12 Q. You say in your statement that Christopher informed the  
13 staff that it was a simple blip and told them that he  
14 was feeling better?

15 A. Mm.

16 Q. Is that something you understand from Christopher's  
17 father or something you discussed with Christopher?

18 A. I believe it was something I discussed with Christopher  
19 and his father. He was ashamed. The bottom line is you  
20 do these things -- he did this -- you know, he took his  
21 overdose when he was low, when he was full of cocaine  
22 and drugs and -- you know, prescribed drugs -- and a lot  
23 of alcohol. And, of course, you go into hospital, they  
24 give you some medication, I think it's benzines(?) or  
25 something, to make you stop from having the jitters of

1 being an addict and, of course, you sober other and you  
2 think, "Oh, gosh, that was a bit of a blip". But, you  
3 know, it was a cry for help in my eyes.

4 **Q.** You comment in your statement that, although there was  
5 that medication support when he was in hospital to help  
6 manage the symptoms of his alcohol dependency --

7 **A.** Mm-hm, mm-hm.

8 **Q.** -- there was again a cliff edge when he left hospital,  
9 as far as you are aware?

10 **A.** Yes, as far as I was aware, purely, as well, because  
11 Christopher had tried to take his own life. Christopher  
12 was depressed. Of course, he then couldn't sleep more  
13 and more, and so I think it really did stop him getting  
14 the help he needed because of his attempted suicides, as  
15 well. So they couldn't supply sleeping tablets or --

16 **Q.** Because of the --

17 **A.** Yeah.

18 **Q.** -- risk of a further --

19 **A.** Yeah, overdose.

20 **Q.** -- overdose?

21 **A.** Yeah.

22 **Q.** You explain in your statement that you believe  
23 Christopher did have mental health assessments prior to  
24 discharge on those two previous occasions?

25 **A.** Mm-hm.

1 Q. Is that something you know to be the case or is it an  
2 assumption you made because of the circumstances?

3 A. It's an assumption that I presumed would have happened  
4 but it's not what I know.

5 Q. Were you, or indeed Christopher's father, contacted  
6 around this time, or at any other point, to provide  
7 a view about Christopher's behaviour at home, to provide  
8 that family input into any assessment that took place?

9 A. No one ever called either of us.

10 Q. Do you think you or Christopher's father should have  
11 been contacted?

12 A. Very much so. I sent emails to the doctors explaining  
13 Christopher's behaviour. I never had one response.

14 Q. When you say "the doctors", at this point that will be  
15 the GP; is that right?

16 A. That will be the GP, yes.

17 Q. So in terms of your involvement with Christopher's  
18 contact with his GP, can you say when that started:  
19 would that have been around the 18-month mark --

20 A. Yes.

21 Q. -- once you were aware of these particular quite severe  
22 problems that Christopher was experiencing?

23 A. Yes, I did go with him once after his friend passed  
24 away. I took him there and he went in because he was  
25 suffering with being very sad and low. But, from that,

1 I don't know what happened there.

2 Q. So this is Christopher's best friend from childhood --

3 A. Yes.

4 Q. -- who you say was like a brother to Christopher --

5 A. Very much so.

6 Q. -- who had considerable physical ill health

7 difficulties --

8 A. Yes.

9 Q. -- and who died when Christopher would have been in his

10 early 30s?

11 A. Yes.

12 Q. Did Christopher ever speak to you about what happened

13 when he had these overdoses, why it was or what happened

14 when he attended hospital on either of those occasions?

15 A. No, he didn't.

16 Q. Again, you may not know the answer to this but do you

17 know whether Christopher was discharged against medical

18 advice on either of those occasions?

19 A. I think, going back to what you said previously about,

20 "Oh, well, it was just a blip": well, maybe once. The

21 first time may have been a blip. I don't think the

22 second time. But both of them weren't, in my opinion.

23 They were both a cry for help. He was drowning and he

24 needed help and support and he got neither.

25 Q. Do you know, and I think from to what you have said the

1 answer is likely to be not, but do you know whether the  
2 offer of a voluntary admission to a mental health ward  
3 was ever discussed with Christopher?

4 **A.** It was never discussed.

5 **Q.** Do you --

6 **THE CHAIR:** To be clear, you know of no mental health  
7 assessment that actually took place?

8 **A.** Yes, I know of no ...

9 **MS LLOYD-OWEN:** Do you know whether, in relation to either  
10 of those overdose incidents in 2021, whether there was  
11 a plan for Christopher on discharge to get further care  
12 or support?

13 **A.** No, nothing.

14 **Q.** Do you know whether Christopher's antidepressant  
15 medication was reviewed after either of those overdoses?

16 **A.** I don't believe so but I do also believe that  
17 Christopher favoured taking the drink and the alcohol --  
18 not favoured, he didn't have an option. He had to do  
19 that. And when he did take it, that's when he  
20 hallucinated and did -- and couldn't -- you know, they  
21 said it would help him sleeping. I think that was the  
22 main thing as well, yet going back to that, but that  
23 made him hallucinate and it was through that incident of  
24 him locking himself into the wardrobe thinking there  
25 were people in the flat, was on the back of them

1 changing another antidepressant.

2 **Q.** So at this point, early 2023 -- we'll come to February  
3 in a moment but, at this point it sounds as though your  
4 understanding is that he's not being given access to  
5 sleeping medication because of the risk of overdose?

6 **A.** Mm-hm, mm-hm.

7 **Q.** The antidepressants are being effectively neutralised or  
8 undermined by the alcohol dependency and other drug  
9 taking?

10 **A.** Mm-hm.

11 **Q.** And his problem sleeping may have increased the  
12 depression that he was experiencing?

13 **A.** Absolutely. Very much so.

14 **Q.** I want to ask you now about your concerns regarding  
15 February 2023 when Christopher attended Southend  
16 Hospital with a ruptured oesophagus?

17 **A.** Mm-hm.

18 **Q.** Can you tell us a little bit about what had happened in  
19 terms of Christopher's physical ill health at that time?

20 **A.** To be honest with you, I -- at that time, I was seeing  
21 Christopher but not as much as I would have liked to.

22 **Q.** Yes.

23 **A.** He was starting to alienate himself from his friends.  
24 Lots of friends had dropped away. He felt very, very  
25 lonely. I would arrange to meet him; he wouldn't show

1 up. I would arrange doctors' appointments; he wouldn't  
2 show up. I would be there; of course I wasn't allowed  
3 to take his appointment. On the back of that, I would  
4 always send an email to the doctor explaining the things  
5 that were going on to no avail. No one contacted me  
6 ever.

7 Could you repeat your question again, please?

8 Q. Just in terms of his physical ill health at that time,  
9 so he comes into hospital with a ruptured oesophagus?

10 A. Yes, yeah.

11 Q. You say in your statement that Christopher's problems  
12 with his throat never improved and simply got worse?

13 A. Yeah.

14 Q. That he had been missing for a day?

15 A. Mm-hm.

16 Q. You had rung everywhere to find out where he was?

17 A. Yes.

18 Q. He was eventually found in his father's home in bed --

19 A. Yes.

20 Q. -- surrounded by his blood --

21 A. Yeah.

22 Q. -- because his oesophagus had ruptured from the constant  
23 vomiting --

24 A. Yes.

25 Q. -- as a result of his alcoholism?

1   **A.** Yes.

2   **Q.** You express it in these terms: that his whole body was  
3       closing down?

4   **A.** His whole body was closing down. The skin on the bottom  
5       of his feet -- because in hospital I was helping him  
6       with this -- everything about him was changing. He  
7       couldn't walk properly initially; he was using a Zimmer  
8       frame. He couldn't swallow properly. Of course, he was  
9       coming off a very high capacity of drugs and alcohol, so  
10      he was very angry because of what was happening to him.  
11      I think he thought he may have been a cat with nine  
12      lives, and he was only going to get a couple, but he'd  
13      already had a few, you know, by doing -- trying to  
14      commit suicide twice but, equally, I will say again,  
15      that was a cry for help.

16             He didn't understand what was happening to his body.  
17      He was in a terrible, terrible state.

18   **Q.** You say you were told by several nurses that he was  
19      incredibly unwell --

20   **A.** Mm-hm.

21   **Q.** -- and would be bluelighted to Chelmsford for surgery --

22   **A.** Yes.

23   **Q.** -- but this then didn't materialise?

24   **A.** No.

25   **Q.** And within a week he was sent home?

1   **A.** Yes, he was put on to a ward. I continually tried to  
2       speak to doctors. I took one doctor to one side, where  
3       Christopher came in on his Zimmer frame a few days  
4       after, and I was literally on my hands and knees  
5       pleading for him to be sectioned. Christopher wanted to  
6       be sectioned also. He couldn't deal with this but he  
7       was very frightened; he was petrified of what was  
8       happening to him.

9   **Q.** You say that Christopher pleaded to be sectioned --

10   **A.** Mm.

11   **Q.** -- as he told them he would any go back to drinking  
12       again?

13   **A.** What he was trying to put across was that drinking and  
14       drugs wasn't an option: he couldn't not do it. But we  
15       were both looked upon as in, "Well, you're doing this to  
16       yourself". When you're a full-blown addict, the doors  
17       of choice have all closed. All you can do is keep on  
18       doing what you're doing to carry on.

19   **Q.** So would it be fair to say that, in the same way as  
20       mental health support might look to remove items  
21       somebody could ligature with --

22   **A.** Mm-hm.

23   **Q.** -- you needed the mental health support or the drug and  
24       alcohol service to remove, for Christopher, for a long  
25       time --

1   **A.** Yes.

2   **Q.** -- the alcohol and drugs that he was causing such damage  
3       to himself with?

4   **A.** Mm. He needed to be sectioned. He needed to be removed  
5       from himself so his choices were taken away, so he could  
6       have time to find himself again.

7   **Q.** You've expressed quite clearly how emphatic you were  
8       when you spoke to doctors, how you were down on your  
9       hands and knees begging them to section him?

10  **A.** Mm-hm, mm-hm.

11  **Q.** Can you recall how Christopher expressed that to  
12       hospital staff, what he said to them?

13  **A.** He continually said, "I can't do this on my own". And  
14       they would look at him as if, "Well, just stop". That  
15       was more or less it. It was like, "Well, just -- you  
16       know, you can stop". You know -- and I keep on  
17       stressing that it's not a choice. He despised himself,  
18       the way he was. He wanted to be different. He couldn't  
19       help himself.

20  **Q.** That's the response that Christopher got when he asked  
21       for this help?

22  **A.** Mm.

23  **Q.** Can you recall what response you got when you were down  
24       on your hands and knees, when you asking doctors to  
25       section Christopher?

1   **A.** To be honest it was almost as if the lights were on and  
2       no one was in. It was almost as if Christopher and  
3       I were the only ones that could see what was happening  
4       and all of them were in the dark. It was just a really  
5       weird feeling. It was almost like I was in a dream and  
6       I hit that wall with that dream so many times, with  
7       every representative for the NHS, when we were pleading  
8       for help.

9   **Q.** Do you know whether Christopher underwent a substantive  
10      mental health assessment to consider his potential  
11      admission to inpatient psychiatric or rehabilitation  
12      unit during that time?

13   **A.** To my knowledge, nothing, purely because when I went in  
14      and he had gone, I questioned the nurse, "How could this  
15      have happened?"

16   **Q.** If a mental health assessment did take place, what is  
17      your view as to whether or not Christopher should have  
18      been admitted to a psychiatric ward or instead been  
19      given greater support in the community?

20   **A.** No, he needed to be sectioned. He needed to be removed  
21      away from himself. His doors of choice had all closed.  
22      He was on his own. He needed help.

23   **Q.** You describe in your statement that someone from  
24      Alcoholics Anonymous came to visit Christopher and fell  
25      asleep on a chair beside his bed?

1   **A.** Mm.

2   **Q.** As far as you're aware, beyond that resource, was there  
3       any other consideration or treatment given to him for  
4       his addiction, whilst he was an inpatient?

5   **A.** There was no other. I did ask and I did ask the nurse,  
6       and she said that that gentleman had been in to see him.

7   **Q.** Do you know if there was any discussion about alcohol  
8       detoxification or him attending a unit or something to  
9       assist with his alcohol abuse?

10  **A.** Not to my knowledge but Christopher was gone past that.  
11       He was killing himself. To say, "Go and pop in and go  
12       and do a course somewhere", would not be an option.

13  **Q.** Was it your impression that Christopher at this point of  
14       serious physical ill health was being given integrated  
15       care, which sought to treat his mental ill health and  
16       substance misuse together, or not?

17  **A.** No. There was nothing available.

18  **Q.** You explain that when he went into hospital with  
19       a ruptured oesophagus, his admission and his treatment,  
20       or lack of it, was all about repairing his oesophagus,  
21       which, in fact, they failed to do anyway, instead of  
22       realising that he is there because he was an alcoholic  
23       and needed help for that condition above all others.

24  **A.** Yes, it wasn't. It was under the same umbrella. None  
25       of it was treated humanely, kindly, compassionately. He

1 was looked down upon. We were both looked down upon, as  
2 if, "Well, you've done this to yourself".

3 **Q.** You expressed the view in your statement that  
4 depression, alcohol, suicide and self-harm must be  
5 treated together?

6 **A.** Absolutely.

7 **Q.** Is it your view that these were being treated separately  
8 as isolated problems, rather than holistically?

9 **A.** There was no holistic approach to any of his care at  
10 all.

11 **Q.** Would it be fair to put it in this way: that you  
12 consider that, by failing to look at Christopher's needs  
13 together, hospital staff failed to recognise that  
14 Christopher's mental ill health and alcohol addiction  
15 were putting him in real danger of death --

16 **A.** Mm-hm.

17 **Q.** -- because of the impact they were having on his  
18 physical health?

19 **A.** Absolutely, yeah. He was drowning. He had no help.  
20 They were offering no help. It wasn't all joined  
21 together at all, looking at it as a big picture. It was  
22 more or less patch you up and get you out.

23 **Q.** I want to ask some questions now about Christopher's  
24 discharge at the end. You say in your statement it's  
25 about a week, is that right, that you understand he was

1 in hospital for?

2 **A.** Yes.

3 **Q.** You've touched upon this but how did you find out that  
4 Christopher was going to be discharged?

5 **A.** Well, we didn't know. I literally went there with a bag  
6 of clothes, and his bed was empty. And then I started  
7 looking for him and he had gone. He hadn't even picked  
8 up the medication from downstairs. He had literally  
9 left the hospital. Knowing that he wasn't going to get  
10 any help, he was deflated, he needed to leave, and it's  
11 a bit -- you know, also they had stopped the drugs they  
12 give you to stop having the jitters the night before,  
13 and he needed to feed the beast that was living in him.

14 **Q.** So at this point, Christopher has gone home. Did you  
15 speak to staff at that point --

16 **A.** Yes.

17 **Q.** -- once you realised he was gone?

18 **A.** Yes.

19 **Q.** What was the conversation that you had?

20 **A.** I just said, "Why? Why has he gone? How has he gone?  
21 We were hoping for him to be sectioned". And they said,  
22 "No, he's gone".

23 **Q.** Do you know whether, in terms of Christopher's mental  
24 ill health or addiction, he was provided with any plan  
25 for care or further support when he was discharged from

1 hospital?

2 **A.** From my knowledge, nothing, and he was very deflated  
3 when I met up with him. He just felt as if he was  
4 abandoned to be fair.

5 **Q.** Do you know whether he was give any information about  
6 what to do if he experienced a mental health crisis?

7 **A.** No, I don't believe he was.

8 **Q.** You mention in your statement that he was never told,  
9 "If this happens, then call this number"?

10 **A.** Gosh no, no. Because we would have wanted that number.

11 **Q.** Do you know if any referrals were made to any community  
12 drug or alcohol services or any community rehabilitation  
13 programme whilst Christopher was in hospital?

14 **A.** Not to my knowledge but, as I said previously, we were  
15 desperately trying to find anybody or anything and, in  
16 the end, that's why I paid for private rehabilitation.  
17 That ended up feeling just like a money-making -- you  
18 know, Christopher -- everyone that Christopher met  
19 there, all of them died.

20 **Q.** In terms of mental health and addiction support, whilst  
21 Christopher was in the community, do you know whether he  
22 was ever signposted or referred to Open Road or any  
23 other community drug or alcohol service?

24 **A.** I don't believe so but, if he had have been, it would  
25 have been the same as me having cancer and saying, "Go

1 and see someone and we'll get rid of it". He didn't  
2 have a choice. He was killing himself. He did not stop  
3 what he was doing.

4 **Q.** You say in your statement that, after Christopher died,  
5 his father found multiple unopened letters from the  
6 NHS --

7 **A.** Mm-hm.

8 **Q.** -- in his letterbox --

9 **A.** Mm-hm.

10 **Q.** -- which were all medical follow-ups?

11 **A.** Mm-hm.

12 **Q.** Are you able to say what these related to? Were they  
13 related to mental health or was it physical health?

14 **A.** I don't know. I'm sorry. I can't answer that question.

15 **Q.** That's no problem at all.

16 What, if any, barriers do you consider Christopher  
17 faced in respect of referring himself to community drug  
18 and alcohol services?

19 **A.** The barriers are -- and this is the bit that it seems,  
20 you know, I am -- I can see, no one else can, is that,  
21 when you are a full-blown addict, you are killing  
22 yourself. Your organs, everything, is starting to give  
23 up on you. You don't want to die but you can't stop  
24 what you're doing. Addiction is not a choice. It's  
25 a road that you've gone down that you hate, but you

1           can't stop.

2   **Q.** Of course, by this point, this is a road that  
3           Christopher has been on for half his life?

4   **A.** I think it was only in the few -- last few years, since  
5           his best friend passed, that literally the spiral -- and  
6           Covid -- that literally made him more isolated. And it  
7           became stronger, and stronger, and stronger. I think it  
8           had been a crutch for maybe a long while to make him  
9           feel more upbeat, to be the Teddy that everyone loved  
10          but, of course, when you are ill, you can't choose to be  
11          well. And he was very unwell.

12   **Q.** You used the term, "a life of chaos" --

13   **A.** Mm-hm.

14   **Q.** -- to describe how Christopher was living at that time?

15   **A.** Absolutely.

16   **Q.** What, in your view, should have been done to provide  
17          effective support to Christopher?

18   **A.** If -- as a mother, if I'd known more -- but, of course,  
19          I was continually pushed away because it was almost like  
20          my eyes were the only one that could see what was going  
21          on -- as a mother, you get the lock, stock and two  
22          smoking barrels of your child, which is a privilege  
23          because they can take it out on you, and you almost hold  
24          on to whatever they give you, the crumbs of life, as it  
25          were. Christopher could not stop what he was doing.

1           That's all I can say, really.

2   **Q.** As far as you understand it, the only support he was  
3       getting for his mental ill health was through the GP?

4   **A.** Well, I wouldn't say it was help at all.

5   **Q.** As far as you're aware, did Christopher ever receive  
6       support from a community mental health service?

7   **A.** Not to my knowledge.

8   **Q.** Then following Christopher's admission to hospital in  
9       February 2023, when he's discharged on his own to go  
10      home, he returned, you say in your statement, to A&E on  
11      two further occasions before his death?

12   **A.** Yes.

13   **Q.** Is that right?

14   **A.** Yes.

15   **Q.** This was with his father, on those occasions?

16   **A.** Yes, yes.

17   **Q.** Can you say a little bit about what you understand took  
18      place on those two occasions and why it was he'd gone to  
19      A&E?

20   **A.** The reason why he went to A&E, because he was drinking  
21      these milky drinks that they gave him, but he was  
22      bringing them up and blowing bubbles with his throat and  
23      so he thought, "This cannot be right". He was  
24      aspirating. He went there, frightened. They kept him  
25      in once overnight and they sent him home and said,

1 well -- I think they changed the brand, and that was it.  
2 He was more or less sent home to die.

3 Q. Do you know whether on these occasions when he went to  
4 the emergency department, whether there was any  
5 discussion or assessment of his mental ill health and  
6 substance misuse on either of those --

7 A. No, no, no.

8 Q. I want to turn now to your concerns regarding the lack  
9 of engagement from mental health services with you and  
10 with Christopher's father?

11 A. Mm-hm.

12 Q. You say throughout his adult life that your relationship  
13 with Christopher had been difficult --

14 A. Mm-hm.

15 Q. -- both as a mother-son relationship and in your working  
16 together?

17 A. Mm-hm.

18 Q. Is it right that you tried to help Christopher by  
19 employing him in your restaurant; is that right?

20 A. Yes.

21 Q. Moving forward to this critical period before  
22 Christopher's death: in February 2023, what was your  
23 relationship with Christopher like at that point?

24 A. So at the end, you mean?

25 Q. Yes.

1   **A.** Yeah. So I'll go back just a bit regarding him working  
2   for me in the restaurant. When he was working in the  
3   restaurant, I never was aware -- he was called "Two-pint  
4   Ted" because he was a very secret drinker. No one knew  
5   about the other side. I knew that he was very hyper but  
6   from a very young age he was also hyper. He always  
7   denied drug taking.

8           Can you repeat the last bit, please?

9   **Q.** Of course. That's extremely helpful. Moving forward to  
10   February 2023, the last three months of his life, what  
11   was your relationship like with Christopher at that  
12   stage?

13   **A.** Yes, so when he came out of hospital -- when he was in  
14   hospital he was still quite angry with me. He had been  
15   angry with me for a long while because he felt as if  
16   I hadn't been there but I had been in the dark for half  
17   of his life and our relationship was volatile. But, as  
18   soon as I found out what was really going on, of course,  
19   like every mother, you want to be there. You want to  
20   save your child. I promised him I would save him.  
21   I would have done anything to help him.

22           He knew that at the end and so, for the last few  
23   weeks of his life, I got my son back. I really lost him  
24   when he was 17, to be fair. I lost him a bit when he  
25   was 12, with his sadness from his realisation the family

1 that he had wasn't quite what he wanted, but from 17 or  
2 so until the end -- but I got my boy back. He even said  
3 to his mates, "I've got my mum".

4 And so I'd lost -- the alcohol and drug addiction  
5 had taken me away from him for half his life. He was  
6 living a life -- he spoke to me that, "Mum, I've wasted  
7 so much time". He could that have gone to uni -- well,  
8 he went to university. The pull back to Southend  
9 because of the drugs was too big, after his work  
10 experience. He had nothing, really, after his work  
11 experience. He didn't achieve his goals.

12 **Q.** Do you think that that pushing you away was sort of an  
13 act of self-harm or him trying to get rid of the support  
14 networks that were available to him?

15 **A.** I think the bit that I keep on going on is that, when  
16 you are a full-blown addict and you're doing something  
17 that you can't stop doing because the feelings are  
18 inside you are so great, and if you do stop taking them  
19 you feel so low and depressed because alcohol and drug  
20 addiction makes you actually low. Your brain is always  
21 trying to make yourself feel better. You know, he just  
22 wanted help.

23 **Q.** You say in your statement and you've said now that you  
24 feel you got your friendship back in the last few months  
25 of his life?

1    **A.**  Mm-hm.

2    **Q.**  You refer in your statement to the subject of  
3        confidentiality, as well?

4    **A.**  Yes.

5    **Q.**  What was your understanding as to whether Christopher  
6        consented to share information about his care and  
7        treatment with you at the time that he was hospitalised  
8        in February 2023?

9    **A.**  I don't think -- lots of us don't understand about the  
10        confidentiality scenario and so I don't think it's about  
11        doctors not speaking.  I think, you know, when you're  
12        out of the medical world and the jargon, you don't know  
13        about that.  I think Christopher would have been very  
14        happy, when he -- when we went to rehabilitation, to  
15        sign a declaration that he's happy for us to then be  
16        part of his journey because he couldn't do it on his  
17        own.  Being a full-blown addict, you need a team of  
18        people.  You can't carry this tombstone with you.

19   **Q.**  You say in your statement that it's important for most  
20        patients to have control over their own lives, even if  
21        they're gravely ill?

22   **A.**  Mm-hm.

23   **Q.**  But for addicts that have no control over their lives,  
24        it effectively blocks any help --

25   **A.**  Absolutely.

1 Q. -- from relatives to engage with medical services?

2 A. Because the bit within you, the addict within you, just  
3 needs to feed the addict. The person beneath the  
4 addiction is still there and they want help. The  
5 addiction still needs to be fed and so you'll do  
6 anything and everything to feed that addiction.

7 Q. You say it seemed like there was no system in place for  
8 the hospital staff to take your view into account?

9 A. Mm.

10 Q. What was the response you got from hospital staff when  
11 you were raising these concerns in February?

12 A. I go back to me being the only one can see, and all of  
13 them being blind. It was almost like they didn't have  
14 the time for that bit because it wasn't part of what  
15 they do.

16 Q. Were you signposted to or told about any kind of  
17 complaint system or further step you could take to raise  
18 your concerns?

19 A. No.

20 Q. I want to turn now just to ask you about your concerns  
21 about the ways in which Christopher's substance misuse  
22 issues impacted on his access to mental health care.  
23 You say in your statement that addiction is a disease  
24 that's looked down upon and stigmatised by people who do  
25 not want to understand it, and it's seen in society as

1 a self-inflicted problem. Is that stigmatisation that  
2 you describe something you believe is also reflected in  
3 the health care that Christopher received?

4 **A.** Very much so.

5 **Q.** Do you think that judgement around substance misuse and  
6 an expectation that that is a problem for the user to  
7 solve, impacted on the way in which he was looked at or  
8 assessed by clinicians?

9 **A.** Very much so. Yes. He was so ashamed of what he was  
10 doing to himself. He couldn't stop.

11 **Q.** You express in your statement your view that Christopher  
12 was treated like a second-class citizen?

13 **A.** Mm-hm.

14 **Q.** Can you say a bit more or anything further about why it  
15 is you've reached that view? What it was in the way he  
16 was treated?

17 **A.** Well, whenever we went anywhere, especially the February  
18 admission, it was almost like we were lepers. It's  
19 almost as if they didn't understand, so it wasn't part  
20 of their pigeonhole square. We were a square peg in  
21 a round hole and we didn't fit anywhere, so we just felt  
22 very lost and abandoned.

23 **Q.** Christopher tragically died on 2 May 2023?

24 **A.** Mm-hm.

25 **Q.** Of bronchopneumonia?

1   **A.**  Mm-hm.

2   **Q.**  I want to turn now to what happened after Christopher  
3       died.  You explain in your statement you had received  
4       a call telling you to go to Christopher's flat?

5   **A.**  Mm-hm.

6   **Q.**  What happened at that stage?

7   **A.**  So I wasn't told what had happened but, when I woke up  
8       that morning, I felt like a different person.  It was  
9       almost like part of me wasn't there any more.  
10       I drove -- and they had, you know, blocked the road off,  
11       and so I wanted to go and -- I was like, "Well, what's  
12       happened?"  It was then I was told that Christopher was  
13       dead, and I said, "Well, I need to see him".  And they  
14       said, "You can't see him", because he had scrambled up  
15       the road trying to get help after waking up in the night  
16       and bringing up more blood.  There was blood all round  
17       the walls and his hand prints everywhere.  He'd gone  
18       outside to try to get help, and he crawled to his death.

19   **Q.**  You say that all of the contact you ever had with anyone  
20       relating to Christopher's death, from that point  
21       onwards, was initiated by you?

22   **A.**  Absolutely.  The day that he died, after they took the  
23       barricade off -- of course they wouldn't let me see  
24       Christopher.  I was sobbing and I just said to the  
25       policeman, "Please can you tell me at least where he

1 was?" They pointed and I sat down and I sobbed. No one  
2 came up to me and every single bit of contact since then  
3 I had to go and find. No one ever came to see me.

4 **Q.** You explain in your statement that you had some  
5 interaction with the coroner?

6 **A.** Mm-hm.

7 **Q.** Can you say whether this was through the coroner's  
8 officer or directly with the coroner?

9 **A.** It may have been the officer; I can't be specific. But  
10 I was so non-accepting, I must be honest, of what had  
11 happened and how could he have been left to go home when  
12 this could have happened. I was like "What else? Did  
13 he do an overdose? Did he do this? What happened? Was  
14 there more?" Because he's flat was empty of lots of his  
15 personal belongings, I thought, you know, what happened?  
16 Only to be told that I wouldn't bother having another,  
17 more thorough postmortem because he was an addict and an  
18 alcoholic. So it was almost like the end of his life he  
19 was judged exactly the same, as in: it's not worth it.

20 **Q.** This is in relation to your request for a second  
21 postmortem?

22 **A.** Yes.

23 **Q.** The postmortem report, you said, had only been sent to  
24 Christopher's father?

25 **A.** Mm-hm.

1 Q. It said he died of bronchopneumonia?

2 A. Mm-hm.

3 Q. You had enquired about a private postmortem?

4 A. Mm-hm.

5 Q. But were advised by the coroner's officer or by the  
6 coroner's court not to get a second postmortem?

7 A. Mm-hm.

8 Q. You felt like you were being told that it's not worth  
9 looking into this further because he's an alcoholic?

10 A. Yes, and I enquired before we actually got the  
11 postmortem because I wanted, you know, the situation  
12 happened, as well, that when somebody dies, you're only  
13 allowed to go and see them once in hospital and, on that  
14 particular day, I couldn't see him. I was in a very bad  
15 place. And I asked if I could go again, and they said,  
16 "You're only allowed once". So I could never see him  
17 until after. And then, equally, they mucked us around  
18 and so it was weeks before I could actually see him.

19 Q. You describe your experience, the communication was very  
20 poor?

21 A. Mm.

22 Q. There was a lack of empathy, care and consideration in  
23 your interactions with the coroner's service?

24 A. *(The witness nodded)*

25 Q. Was that true of your interactions with all of the

1 services after Christopher's death or were there  
2 exceptions?

3 **A.** The police were particularly poor. The coroner was just  
4 doing their job and -- but very poor. Everything.  
5 There was not one -- there was not one glimmer of hope  
6 with any liaison that gave me any thought of being  
7 almost nurtured as -- I'd just lost my son and I was --  
8 I -- it was almost as if I then carried my own son's  
9 baton of how he felt. I then became the person carrying  
10 the baton of an addict.

11 **Q.** So there was some liaison with the coroner's court ahead  
12 of the postmortem and then after it. Can I understand:  
13 there wasn't in fact, is this right, any inquest  
14 hearing? There wasn't any further investigation beyond  
15 the postmortem, as far as you're aware?

16 **A.** There wasn't, no.

17 **Q.** As far as you're aware, was there ever an investigation  
18 by EPUT regarding any care or treatment administered to  
19 Christopher?

20 **A.** None.

21 **Q.** As far as you're aware, was there ever any other  
22 investigation regarding either his physical or mental  
23 health care treatment in those last few months of his  
24 life and what followed?

25 **A.** No, no, there was none.

1     **THE CHAIR:** But can we be clear, he never received treatment  
2           from EPUT?

3     **A.** I don't believe he ever received any treatment  
4           through -- or even contact.

5     **THE CHAIR:** Thank you.

6     **MS LLOYD-OWEN:** You say in your statement that you feel at  
7           no stage was he given support after he died by anybody,  
8           and that he was terribly unwell, yet treated as though  
9           he was an inconvenience?

10    **A.** Very much so and I carried the baton after he died.

11    **Q.** Did you ever want to submit or, in fact, submit  
12       a complaint following his death?

13    **A.** I was more or less very much so just shunned away, as  
14       if, you know -- and also, it felt as well that -- this  
15       is how I was led to believe, that if I was -- I couldn't  
16       get hold of his medical records. It took me nearly  
17       a year to get medical records, purely because (1)  
18       I wasn't the next of kin on the paperwork and so  
19       [redacted] sent the documentation. But we both were  
20       then trying, and it was almost like they didn't want to  
21       give us them. It was almost like a secret that, "Oh no,  
22       we don't want this".

23    **Q.** So the next of kin for Christopher was his father; is  
24       that right?

25    **A.** Yes, apparently, yes.

1 Q. But having spoken to his father, he had similar issues  
2 and difficulties in getting answers?

3 A. It was only me that has ever fought this. His dad still  
4 works and so I'm the one that has been trying to get  
5 everything sorted, really. But, equally, he did the  
6 written letter, so we could eventually get the medical  
7 records, only for them to be highlighted and a lot been  
8 taken out of them, and they were quite difficult to  
9 read. But it looks like there was no help offered.

10 **MS LLOYD-OWEN:** Sonia, the final topic I want to come up on  
11 to is recommendations for change that you make, and then  
12 we will turn to your commemorative evidence.

13 I'm just conscious of the time and I wonder if now  
14 might be a convenient moment for a break, and then we'll  
15 resume with recommendations after a ten-minute break.

16 **THE WITNESS:** Thank you.

17 **(11.04 am)**

18 **(A short break)**

19 **(11.19 am)**

20 **MS LLOYD-OWEN:** Sonia, we'll now go through the  
21 recommendations, firstly those set out in your  
22 statement, and I believe you also have some further  
23 recommendations which we will discuss after that.

24 A. Mm.

25 Q. I will ask if you'd like to say anything further about

1 those recommendations in your witness statement or how  
2 they impacted on, or could have changed, Christopher's  
3 care and treatment. It may be that you feel we've  
4 covered them sufficiently already but I'd like to make  
5 sure you have the opportunity to say everything that  
6 you'd like to say in respect of your recommendations.

7 Please can we have paragraph 55 on the screen.

8 So you should see on the screen in front of you your  
9 paragraph 55 of your statement at page 15. You make  
10 here, at subparagraphs (a) to (d), four recommendations  
11 in relation to the treatment of alcoholism and  
12 addiction. If you just read those through and let me  
13 know if there's anything further you'd like to say about  
14 those recommendations on the page, or comment you'd like  
15 to make about them.

16 *(Pause)*

17 In relation to those recommendations, you talk about  
18 addiction as a pandemic and the need to remove shame  
19 related to alcoholism and addiction, that there should  
20 be a formal mental health diagnosis of addiction and  
21 that it should be the subject of its own department  
22 within the medical service.

23 **A.** Mm-hm.

24 **Q.** Is there anything you want to add in relation to those  
25 points?

1   **A.** I think I am not sure if it includes within that, the  
2       confidentiality: open a door for parents, families and  
3       friends to help addicts. Don't block the support. That  
4       needs, I feel, to be -- the rehabilitation centres, they  
5       need more regulation to support the aftercare programme  
6       and also the confidentiality needs to be addressed  
7       there.

8   **Q.** Yes, and you say at your paragraph 55(e), which if we go  
9       down to at the bottom of that page:  
10                "Families need a voice and the subject of  
11                confidentiality needs review."  
12   **A.** Mm-hm.

13   **Q.** "Within the framework of the hospital, families and  
14       friends and loved ones should be involved from the first  
15       admission. They should have an option of being informed  
16       about everything and be fully involved in the  
17       rehabilitation process."  
18   **A.** Mm-hm, mm-hm.

19   **Q.** "This is paramount to change, especially for addiction,  
20       where you are at your weakest and alone."  
21   **A.** Mm-hm.

22   **Q.** Does that summarise your position or is there anything  
23       you'd like to add in relation to that?  
24   **A.** Well, I think the diagnosis of mental health conditions  
25       in primary school, ADHD, autism and dyslexia, support

1 for the children and the parents because, in reflection,  
2 if Christopher was diagnosed with a condition or  
3 conditions in primary school, rather than him feel maybe  
4 not as intelligent or any of those things, rather than  
5 feel that that labels you as not being enough, by  
6 getting your diagnosis and understanding any of these,  
7 who you are, you can become very special in your own  
8 right and it's not a negative; it's a positive. To  
9 understand that means you could then have the full life  
10 that you deserved, rather than just going through the  
11 system feeling slightly not quite part of it.

12 The life classes that I also speak about, the  
13 primary school -- I do understand from here that in the  
14 senior schools they do actually have a life class once  
15 a week now, which is very good.

16 **Q.** This is in relation to education around addiction --

17 **A.** Yeah.

18 **Q.** -- in primary schools. Is that something you would also  
19 recommend?

20 **A.** Absolutely. It has to happen in primary schools. Only  
21 that I've recently found out that, often, people that  
22 deal in drugs and things, the last couple of years  
23 before children actually are going up to senior school,  
24 they're groomed, especially in the areas where people  
25 don't have as much money, as well. They see the

1 youngsters as opportunities to -- literally -- and a lot  
2 of children are going up to secondary school and already  
3 being dealers. So it desperately, desperately needs to  
4 happen. And, of course, how they pay for them to do  
5 their job is they're all addicted already. So their  
6 life is over.

7 I think treatment -- treat addiction as an illness.  
8 Section people who are an immediate harm to themselves,  
9 like my son Christopher. Intervention must happen to  
10 prevent death. A full-blown addict can't be left to  
11 look after themself.

12 I think I've already said about the rehabilitation  
13 centres, more regulation, and that educate public sector  
14 workers, the NHS and police. Purely, the treatment  
15 I got was below poor. It was cruel and not humane.

16 **Q.** Those are some of the further recommendations that you  
17 have?

18 **A.** Yes.

19 **Q.** If we can just pull up the final recommendation on  
20 page 16 at your paragraph (f):

21 "Money taken from taxes on alcohol should go back  
22 into the problem to help people. Alcohol is glamorised  
23 but it is a killer. There needs to be an understanding  
24 of what it does to the body and the brain, and this  
25 could be done through public health warnings similar to

1 smoking."

2 **A.** Mm-hm.

3 **Q.** Is there anything you want to add in relation to that  
4 recommendation or any other recommendations that we  
5 haven't touched on yet?

6 **A.** Mm-hm, I think it's the posters up and, you know, it  
7 needs to be on television, talking about the rewiring of  
8 the brain. You know, I've now studied more of what  
9 actually happens, of how you then become an addict. If  
10 we could educate this within the primary schools and the  
11 senior schools, of just -- you know, we all have a brain  
12 but it seems to be the most -- least looked into thing.  
13 It controls all our lives, but just because we feel and  
14 behave a certain way doesn't mean it has to be with us  
15 for the rest of our life. We can rewire this, the same  
16 as alcohol and drugs rewire it the wrong way. We could  
17 actually educate people to be able to work and have the  
18 best lives possible, rather than the demise which  
19 happened to Christopher.

20 **MS LLOYD-OWEN:** Thank you, Sonia.

21 I don't have any further questions for you at this  
22 stage. Is there anything further that you don't think  
23 we've covered that you'd like to raise at this point?

24 **A.** At this moment, no, I don't think so, thank you.

25 **MS LLOYD-OWEN:** Chair, do you have any questions?

1     **THE CHAIR:** I don't thank you, Ms Lloyd-Owen.

2             But thank you very much indeed for giving us your  
3     evidence.

4     **MS LLOYD-OWEN:** Sonia, as I've said at the beginning, you've  
5     prepared a commemorative account about Christopher that  
6     you're now going to read. You've also provided  
7     a photograph of Christopher that will go up on the  
8     screen once you've finished reading your commemorative  
9     account.

10            And, because I have no further questions and because  
11     the Chair has no further questions, I am going to ask  
12     that you can finish there but that you stay in the  
13     building so we can see if there are any other questions  
14     for you.

15            If you then aren't required to come back for further  
16     questions, you'll be free to go.

17     **A.** Okay.

18     **Q.** So I want to say now how grateful we are to you for the  
19     evidence that you've given today.

20            And Chair, if there are no further questions after  
21     the commemorative evidence and the break, we'll resume  
22     on Monday morning at 10.00 am.

23     **THE CHAIR:** Thank you.

24     **MS LLOYD-OWEN:** Sonia, whenever you're ready, you've  
25     prepared a commemorative account in relation to

1 Christopher.

2 **Commemorative account of Christopher Irwin (read)**

3 **THE WITNESS:** Okay.

4 Thank you for all coming today. I would like to  
5 thank the Lampard Inquiry for enabling this to happen:  
6 to give back the voice to those that were silenced.  
7 I do hope that the work you are doing will help make the  
8 world a more gentle and compassionate place so fewer  
9 families can go through what we have.

10 I'm here to talk about my darling boy, Christopher.  
11 He mattered. He was loved. His life had immense  
12 brilliance, value and potential. I feel privileged to  
13 be his mother.

14 Christopher was born on 18 December 1988 and was  
15 34 years old when he died. He was delivered C-section  
16 and was accidentally injured during the operation,  
17 suffering a deep cross across his body. He was taken  
18 from me for four days while I fed other babies on the  
19 ward. When he returned to me, he gorged. This remained  
20 with him for the rest of his life, really.

21 In a painful parallel, his death was almost  
22 traumatic. He haemorrhaged at home alone and was found  
23 on the street after trying to get help. This is  
24 something I found very difficult to reconcile, as it  
25 adds a sense that his life was marked both in suffering.

1           Although his life ended in tragedy, it is important  
2           that he is not only remembered through his illness or  
3           his death but as the human being he truly was.  
4           Christopher had a gargantuan appetite for love -- life.  
5           Enough was never quite enough for him. He loved people,  
6           company, laughter and connection. He had a personality  
7           that filled a room. He was charismatic and had  
8           a magnetism that drew people to him. He made friends  
9           easily and deeply and he wanted everyone to feel  
10          included. He was a giver by nature.

11          When he was three years old he met his best friend,  
12          who he would remain part of his life forever. That  
13          friend became seriously ill when only three and left  
14          paralysed and unable to speak. Christopher always  
15          understood him. They had an affinity together; they  
16          were soul mates. Christopher helped with his personal  
17          care. He never left him out; he made sure he was part  
18          of everything. He cared for him like a brother. This  
19          is the kind of person Christopher was.

20          From childhood, Christopher felt things deeply and  
21          struggled with anxiety. His father and I separated when  
22          he was very young and this made his anxiety worse,  
23          especially as his father lived abroad most of his life.  
24          Well, at least until he was 17.

25          He liked to be with other children and became

1 unhappy if there was not enough to occupy him. He  
2 always had an overactive brain and a hyperactive body  
3 and did not sleep through the night until he was seven  
4 years old.

5 At the age of 12, he experienced a deep, emotional  
6 trauma: someone close to him was living a lie. His  
7 bubble was burst and he became disillusioned. This  
8 affected his ability to form close, trusting  
9 relationships throughout his life.

10 Christopher's introduction to alcohol and cocaine  
11 began when he was a teenager during a period of work  
12 experience. This happened without my knowledge at the  
13 time but, having read his diaries after his death, he  
14 describes the start of his journey into adulthood.

15 He enjoyed the feeling that drugs and alcohol gave  
16 him. It gave him more confidence; it helped him to be  
17 part of things. He had a love of life and people, and  
18 everyone benefited from his generosity.

19 At first, he was not a solitary drinker. He  
20 remained the life and soul of the party: still  
21 entertaining, still paying, still giving. He grew up.  
22 To the outside world, he looked successful and  
23 confident. He worked in the City; he ran his own  
24 business; he appeared capable and sociable.

25 What people did not see was the struggle beneath his

1 appearance. Addiction took hold but was hidden by  
2 laughter, bravado to others. He still looked like the  
3 same old Christopher. In reality, it was destroying  
4 him.

5 Over time, fair-weather friends fell away. Better  
6 friends found it painful to be around him because they  
7 could see his decline. He became ashamed. He felt deep  
8 guilt and stigma about being an addict. He lost his  
9 closest friend to the disease and was devastated by that  
10 loss, and he began to shut himself away.

11 Addiction opens doors to hell in a person's life.  
12 Over time, it rewires the brain. Stopping is no longer  
13 possible. It takes you down dangerous roads to just  
14 survive this addiction. You see, you would do anything  
15 to feed that beast because living with yourself becomes  
16 so unbearable. Friendships fall apart; special friends  
17 did not stand a chance.

18 He would have made such a wonderful father.  
19 Financially, it took everything and more because  
20 addiction had to come first. From the age of 17, when  
21 he was first introduced to alcohol and drugs, it began  
22 eating his life away. He never grew past that point.

23 During Covid lockdown, Christopher's world became  
24 smaller and more isolated. He had a girlfriend but the  
25 relationship ended and he found himself living alone.

1 The struggle and connection he needed disappeared at the  
2 same time as his addiction was tightening its grip.

3 He lost daily contact; he lost routine; he lost the  
4 small anchors that kept him going. His loneliness  
5 deepened and became more shut away from the world. From  
6 his late teens, I could see a change in Christopher's  
7 behaviour, which was challenging and irrational. Our  
8 relationship was strained and difficult and I couldn't  
9 understand why. I did question whether he was taking  
10 drugs and he constantly denied this by making our  
11 relationship worse.

12 18 months before he died, his father informed me  
13 that Christopher was an alcoholic for a lot of his life.  
14 He had struggled to hold down work and form close  
15 relationships, and the main reason for this was becoming  
16 very clear. I knew that something had to be done  
17 quickly. I tried and paid for private rehabilitation:  
18 there was no help in the NHS.

19 Rehab was ineffective and felt like blame was placed  
20 on Christopher, rather than the support offered. By  
21 then, he was already very unwell and, once back in his  
22 own environment, he carried on drinking, with no back-up  
23 from the centre to support him.

24 This is where the loss of himself became more  
25 visible. He became more vulnerable and mentally unwell.

1 He was hallucinating and had feelings of paranoia.  
2 Addiction had taken control of him and the need to feed  
3 it overrode everything else. If it was not fed, there  
4 were real physical and psychological consequences. The  
5 doors of choice had closed and all he could do was  
6 continue with the behaviour that was killing him. He  
7 believed that who he had become was who he was.

8 From reading his diaries in rehab, after he died,  
9 I came to understand how trapped he felt and how much  
10 shame and despair he carried about what he was doing.  
11 He wrote:

12 "No words could tell of the loneliness and despair  
13 I find in the bitter morals of self-pity. Quicksand  
14 stretched all around me in all directions. I had met my  
15 match. I'd be overturned. Alcohol was my master."

16 He wrote that in rehab.

17 I found out towards the end of Christopher's life  
18 that Christopher had attempted suicide a couple of  
19 times. In my view, Christopher's suicide attempts were  
20 not a wish to die but a cry for help, to a world that  
21 was not listening to him.

22 At this time I was not aware. When Christopher  
23 asked why did I not come to and see him? I answered "No  
24 one told me".

25 People were trying to protect each other in a system

1 built on secrecy and fear. Love was present; it just  
2 wasn't enough to stop the illness. I loved my son in  
3 the only way available for me in an impossible  
4 situation. Love did not fail Christopher; his illness  
5 did.

6 Alcohol became his way of blocking out the pain and  
7 the shame he felt about his actions and numbing his  
8 brain. By the time he was seeking help, he was already  
9 living with addiction, depression and physical  
10 deterioration.

11 His behaviour was not simply risk taking or  
12 non-compliant; it was an expression of an illness that  
13 had taken hold of his life.

14 We live in a modern world full of convenience and  
15 products to make our lives easier and more enjoyable but  
16 we have also invented products such as alcohol and  
17 drugs. These products are not natural to us. Most  
18 people don't get addicted to these man-made stimulants  
19 but large minority do. Scientists don't know why  
20 certain people become addicts and others don't but they  
21 do know that it rewires your brain.

22 Addiction is not a choice for those that become  
23 addicted but, for many in society, the overwhelming  
24 belief is that it is a choice.

25 This belief fuelled the death of my son in the end,

1 by people that believed he could save himself from his  
2 own actions if he did choose to stop drinking. They  
3 believed he did have a choice; he didn't.

4 Christopher was admitted to hospital in February  
5 2023. He was extremely unwell with damaged oesophagus,  
6 from constant vomiting and unable to eat properly. He  
7 was deemed too frail to operate on and discharged. He  
8 was discharged unable to eat properly, so was given food  
9 supplements to form milky drinks, to keep him alive.

10 This was a critical moment in his life. He could  
11 not swallow safely and he was physically deteriorating  
12 rapidly. Three months later, he was dead. He was  
13 frightened by what was happening to his body and was  
14 aware that he was losing control. He told me that he  
15 wanted help and that he did not trust himself to cope  
16 alone. Just living had become a full-time effort and he  
17 was severely depressed.

18 Christopher and I were both in the view that he  
19 needed to be sectioned to save his life. This request  
20 was refused. Christopher did not experience his  
21 discharge as recovery; he experienced it as abandonment.

22 Despite his physical illness, history of mental  
23 addiction, previous suicide attempts and expressions of  
24 despair and loss of control, Christopher was discharged  
25 home to live alone. After discharge, he returned twice

1 to A&E. He continued to weaken. Each time, despite his  
2 deterioration, the advice was essentially the same,  
3 "Stop drinking and keep taking the milky drinks".

4 We trusted the professionals knew best. We did not  
5 understand that he was being sent home to manage  
6 something he could not manage. Christopher felt there  
7 was nowhere to turn. I felt there was nowhere to turn.  
8 We were asking for help and repeatedly sent home.  
9 I attended appointments with him to the GP to raise  
10 concerns, sending emails to no avail.

11 He went to the hospital and was told to eat, to try  
12 to manage, try and cope but, by then, he could not help  
13 himself.

14 He was losing his ability to care for himself. At  
15 the same time, he was losing all hope that anyone could  
16 help him. At that point, Christopher believed there was  
17 no help available for him, and lost hope. Even in the  
18 state that Christopher was, he wanted to live.

19 Christopher had reached a point where he no longer  
20 had real choices. His illness had taken over his  
21 ability to decide differently.

22 People sometimes see behaviour and think it's  
23 a choice. From the inside, it felt like there were no  
24 doors left open. By that stage, he wasn't choosing  
25 between good or bad options; he was trying to survive.

1           In the final months of his life, we found our way  
2 back to each other and I had my son again. For that,  
3 I will be always grateful.

4           What is hardest to me is not only that Christopher  
5 died but that I lost him long before he died. He lost  
6 himself long before his body failed. The person he had  
7 been, his brilliance, his warmth, his joy, slowly  
8 slipped away.

9           He tried to get back to the person by taking more  
10 drink and drugs, just to feel even slightly like  
11 himself. He did not want to die; he wanted to live.

12           Christopher's life and death have shown me easily  
13 how a good person can be lost when addiction is  
14 misunderstood and treated like a moral failing, instead  
15 of an illness. His behaviour was read as a choice,  
16 when, in reality, his illness had taken away his ability  
17 to choose. He was not refusing help; he was trapped in  
18 his condition that controlled him. He wanted to live  
19 but he was being asked to survive alone when he no  
20 longer had physical or psychological capacity to do so.

21           What the system met was not an addict or not  
22 a non-compliant patient. It met a person who was  
23 frightened, physically failing, mentally unwell and  
24 asking for help. It met someone whose illness had taken  
25 away his ability to choose differently, but whose desire

1 to live had not gone away.

2 This is why Christopher's case matters. It's not  
3 just about one man; it's about what happens when  
4 addiction is placed outside the mental health, when loss  
5 of control and self-help is not recognised as risk. If  
6 the risk is not managed by medical help, the person  
7 would quickly come to the point of death itself. You  
8 see, you can section a person because of mental illness;  
9 they are recognised as ill. Why not addiction, when  
10 addiction has taken away the ability to keep themselves  
11 safe and they have lost their self-control?

12 I believe the true core of the problem we face, in  
13 fact the majority of society -- and this includes  
14 everyone from the general population, politicians, the  
15 police and the Health Service -- believe addiction is  
16 a self-inflicted problem. They believe it is brought on  
17 by weak people who should not dabble in things that is  
18 obviously bad for them. The stigma of this belief is  
19 across the board.

20 Addiction is caused by man-made substances, which  
21 a large minority cannot tolerate or control, and needs  
22 a man made solution. That solution is to care for them  
23 in the same way as any other illness. Currently, this  
24 is not being done because society doesn't view it as an  
25 illness.

1           You have heard from me of Christopher's experience  
2 when trying to get help he desperately needed. I will  
3 now give you an example how different the experience is  
4 if you have an illness that is equally deadly but  
5 completely accepted by society: cancer.

6           In my experience, when someone has cancer, the NHS  
7 can't do more to help them through every stage of the  
8 illness. They are not blamed for the illness but viewed  
9 with sympathy, compassion, care and humility. Both the  
10 NHS and cancer charities help them through their journey  
11 and, if they die, they do with the family around them,  
12 in hospice for 24-hour care.

13           In contrast, this was Christopher's life experience  
14 when trying to get help: there was no sympathy,  
15 compassion, care or humility. At every stage towards  
16 the end of his life, he was told there was nothing they  
17 could do for him and he would need to help himself to  
18 solve his own problems.

19           Unable to help himself, he was cast out of the  
20 system and left to die. He did this on the street  
21 trying to get help.

22           If anything comes out of this Inquiry, I would like  
23 to urge anyone with the power to make a real change to  
24 try to understand that addiction is not a choice people  
25 have. Like cancer, it can happen to anyone and real

1 families are going through this as we speak today.

2 There are millions of people out there, either who  
3 are struggling themselves or are affected by someone  
4 with the addiction. At the visible end, they fill A&E  
5 wards, the homeless hostels and prisons. At the  
6 invisible end they are non-productive or cause pain and  
7 suffering for everyone around them, including  
8 themselves. Something has to change.

9 Before I go, I would like to share with you  
10 a beautiful story about Christopher and his nan. This  
11 only happened a couple of weeks before he died.

12 Christopher organised a shopping outing with his  
13 nan, texting her the night before to be ready by 10.00.  
14 He suggested they go on a bus, buy an outfit, and go for  
15 lunch, and maybe have a sneaky cigarette. He arrived  
16 just before 10.00, joking with his helper he was taking  
17 his nan on a date to Bon Marché and she wouldn't be home  
18 for lunch.

19 She recalled to me after he died, "He was such  
20 a kind, lovely young man". Christopher was always so  
21 kind to his nannies. You see, even when he was  
22 completely overwhelmed and completely out of control,  
23 the real Christopher was still there underneath. His  
24 capacity for kindness, care and connection never  
25 disappeared. His greatness still shone through, like

1 a diamond in the dark.

2 To me, Christopher will always be my precious work  
3 of art. Thank you.

4 **THE CHAIR:** Thank you very much indeed.

5 **MS LLOYD-OWEN:** Thank you, Sonia.

6 Please can we have the photograph of Christopher on  
7 screen now.

8 *(Photograph displayed)*

9 Thank you.

10 **THE CHAIR:** I'm very grateful.

11 **MS LLOYD-OWEN:** Thank you, Sonia. We'll now take that  
12 ten-minute break and, if there aren't any questions,  
13 thank you so much for your evidence today.

14 **(11.55 am)**

15 **(A short break)**

16 **(12.04 pm)**

17 **CASE MANAGER:** There are no further questions for this  
18 witness, so that concludes our hearing for today. We  
19 will reconvene on Monday at 10.00 am.

20 **(12.04 pm)**

21 **(The Inquiry hearing adjourned until 10.00 am**  
22 **on Monday, 16 February 2026)**
