Monthly Usage Report

June 2024

Tees Esk and Wear Valleys Partnership NHS Trust

oxehealth

Magdalen Centre North, The Oxford Science Park, Oxford OX4 4GA
Customer support line: 0800 030 6781

Contents overview

This report includes:

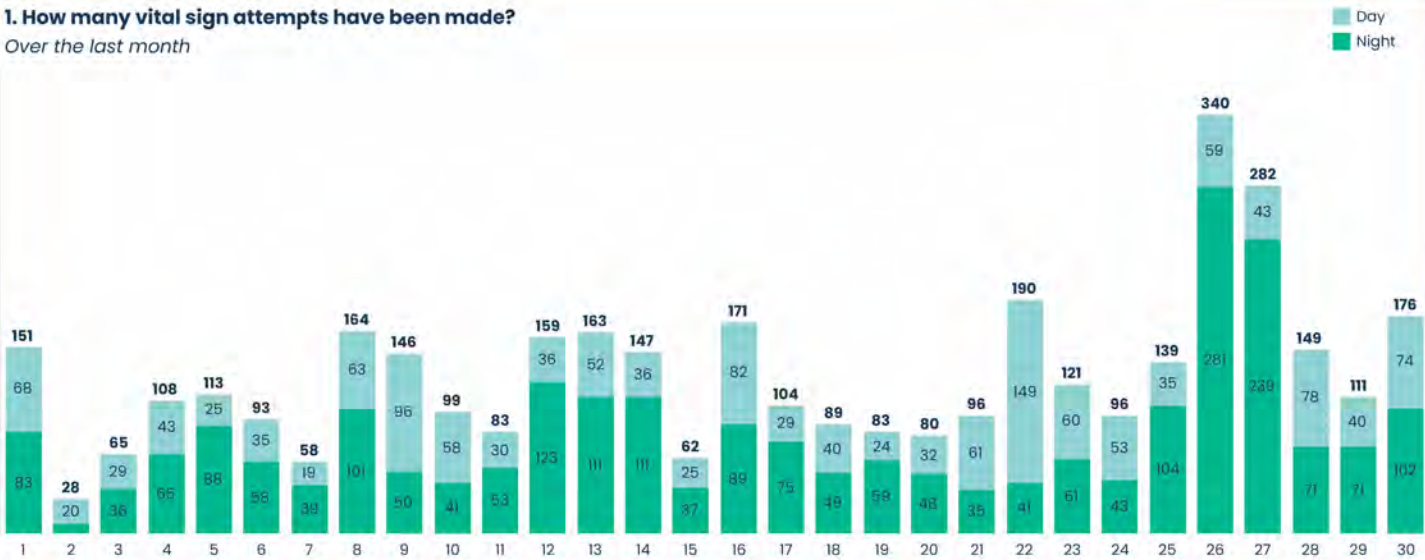

- › **Definitions** – see below
- › **Individual ward usage summary** – a page for each ward
 1. Number of vital sign attempts each day over the last month, split between day and night, with trend lines
 2. Speed of alert resets each day over the last month
 3. The usage of each device that has been used over the last month
 4. List of all devices assigned to the ward, if they are being used or not and when they were last used
- › **All wards usage summary**

Definitions

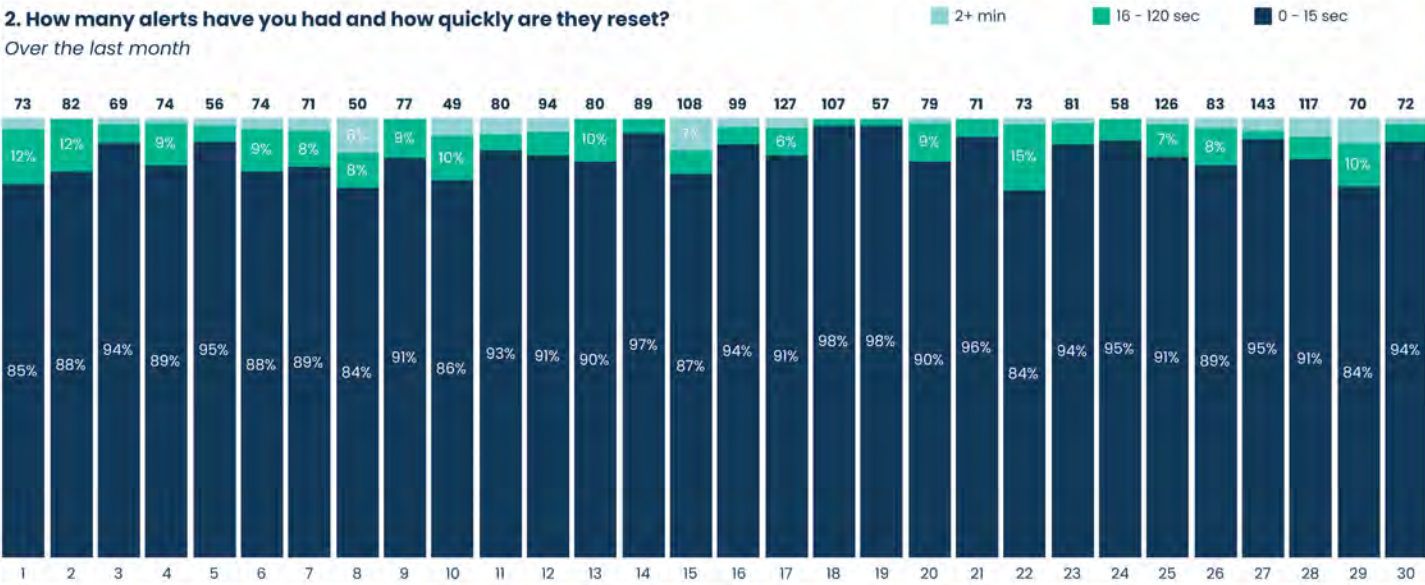

- › **Day/ Night** – Daytime results are from 8am–8pm, nighttime results are from 8pm–8am
- › **Alert Reset** – When an alert is triggered and the alert is reset on an Oxehealth device
- › **Alert Reset Speed** – The time between an alert being triggered and the alert being reset
- › **Vital Sign Attempts** – Number of times the medical device is accessed to attempt a vital sign observation by clicking on "Take Vital Signs"
- › **Device Usage** – Interactions with the vital sign or alert reset functionality on the Oxehealth device
- › **Vitals Displayed** – Number of times a vital sign attempt is made and either a pulse rate or breathing rate is displayed
- › **Activity Report Views** – Number of times an activity report is accessed
- › **Blank Pages & Rows** – Pages & Rows appear blank when no activity has been recorded for the ward / room for the given time period observed

If you have any feedback on the Usage report, we would love to hear from you. Please contact us via the feedback form on your Oxevision device.

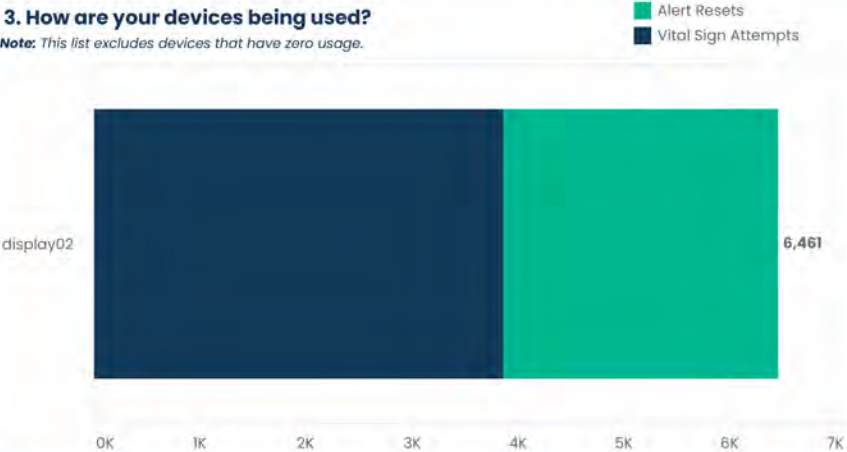

1. How many vital sign attempts have been made?
Over the last month

Monthly Usage Report

September 2024

Tees Esk and Wear Valleys Partnership NHS Trust

oxehealth

Magdalen Centre North, The Oxford Science Park, Oxford OX4 4GA
Customer support line: 0800 030 6781

Contents overview

This report includes:

› **Definitions** – see below

› **Individual ward usage summary** – a page for each ward

1. Number of vital sign attempts each day over the last month, split between day and night, with trend lines
2. Speed of alert resets each day over the last month
3. The usage of each device that has been used over the last month
4. List of all devices assigned to the ward, if they are being used or not and when they were last used

Oxevision Time Switched On is the total time the system was active, across all rooms during the month

› **All wards usage summary**

Definitions

› **Day/ Night** – Daytime results are from 8am–8pm, nighttime results are from 8pm–8am

› **Alert Reset** – When an alert is triggered and the alert is reset on an Oxehealth device

› **Alert Reset Speed** – The time between an alert being triggered and the alert being reset

› **Vital Sign Attempts** – Number of times the medical device is accessed to attempt a vital sign observation by clicking on "Take Vital Signs"

› **Device Usage** – Interactions with the vital sign or alert reset functionality on the Oxehealth device

› **Vitals Displayed** – Number of times a vital sign attempt is made and either a pulse rate or breathing rate is displayed

› **Activity Report Views** – Number of times an activity report is accessed

› **Blank Pages & Rows** – Pages & Rows appear blank when no activity has been recorded for the ward / room for the given time period observed

If you have any feedback on the Usage report, we would love to hear from you. Please contact us via the feedback form on your Oxevision device.

Contents overview

This report includes:

- › **Definitions** – see below
- › **Individual ward usage summary** – a page for each ward
 1. Number of vital sign attempts each day over the last month, split between day and night
 2. Speed of alert resets each day over the last month
 3. The usage of each device that has been used over the last month
 4. Activity Report views and Vital Signs Trends Report views over the last month, split between day and night

Oxevision Time Switched On is the total time the system was active, across all rooms during the month
- › **All wards usage summary**

Definitions

- › **Day/ Night** – Daytime results are from 8am–8pm, nighttime results are from 8pm–8am
- › **Alert Reset** – When an alert is triggered and the alert is reset on an Oxehealth device
- › **Alert Reset Speed** – The time between an alert being triggered and the alert being reset
- › **Vital Sign Attempts** – Number of times the medical device is accessed to attempt a vital sign observation by clicking on "Take Vital Signs"
- › **Device Usage** – Interactions with the vital sign or alert reset functionality on the Oxehealth device
- › **Vitals Displayed** – Number of times a vital sign attempt is made and either a pulse rate or breathing rate is displayed
- › **Activity Report Views** – Number of times an activity report is accessed
- › **Blank Pages & Rows** – Pages & Rows appear blank when no activity has been recorded for the ward / room for the given time period observed

If you have any feedback on the Usage report, we would love to hear from you. Please contact us via the feedback form on your Oxevision device.

Monthly Usage Report

December 2024

Tees Esk and Wear Valleys Partnership NHS Trust

oxehealth

Bee House, 140 Eastern Avenue, Milton Park, Oxfordshire, OX14 4SB, UK
Customer support line: 0800 030 6781

Contents overview

This report includes:

- › **Definitions** – see below
- › **Individual ward usage summary** – a page for each ward
 1. Number of vital sign attempts each day over the last month, split between day and night
 2. Speed of alert resets each day over the last month
 3. The usage of each device that has been used over the last month
 4. Activity Report views and Vital Signs Trends Report views over the last month, split between day and night

Oxevision Time Switched On is the total time the system was active, across all rooms during the month
- › **All wards usage summary**

Definitions

- › **Day/ Night** – Daytime results are from 8am–8pm, nighttime results are from 8pm–8am
- › **Alert Reset** – When an alert is triggered and the alert is reset on an Oxehealth device
- › **Alert Reset Speed** – The time between an alert being triggered and the alert being reset
- › **Vital Sign Attempts** – Number of times the medical device is accessed to attempt a vital sign observation by clicking on "Take Vital Signs"
- › **Device Usage** – Interactions with the vital sign or alert reset functionality on the Oxehealth device
- › **Vitals Displayed** – Number of times a vital sign attempt is made and either a pulse rate or breathing rate is displayed
- › **Activity Report Views** – Number of times an activity report is accessed
- › **Blank Pages & Rows** – Pages & Rows appear blank when no activity has been recorded for the ward / room for the given time period observed

If you have any feedback on the Usage report, we would love to hear from you. Please contact us via the feedback form on your Oxevision device.
