Programme

The NHS England e-Learning for Healthcare resource is titled "National Early warning 2 - NEWS2 in secondary care" and sits within the Recognising and Managing Deterioration programme.

Description

The Early Warning Scores section includes resources on NEWS2. The catalogue states that NEWS2 is endorsed by NHS England and NHS Improvement for use in acute and ambulance settings. It also references maternity, paediatric and neonatal early warning or track-and-trigger learning sessions.

Intended audience

The secondary-care training package is intended for healthcare staff in secondary-care settings.

Resource coverage

- The need for NEWS2 and the evidence supporting its use.
- Recognition and response to deterioration in secondary care.
- The purpose of SBARD as a structured communication tool.
- Use of NEWS2 as an assessment and communication tool through clinical case studies.

Catalogue information

The indexed catalogue page records creation and last major update dates of 27 March 2025. Access to the session may require sign-in through the e-LfH Hub or Learning Hub.

Source record

This document is a concise evidence capture of publicly accessible or publicly indexed information. The live webpage remains the authoritative source and may change after the capture date.
